## **We're here to help you with all your support product needs.**

To Our Customer,

[Globe Pipe Hanger Products, Inc.](#) is a leading design engineer, manufacturer and marketer of pipe hanger products serving the USA and international markets in fire protection, mechanical, commercial plumbing and new or rehabilitation construction projects.

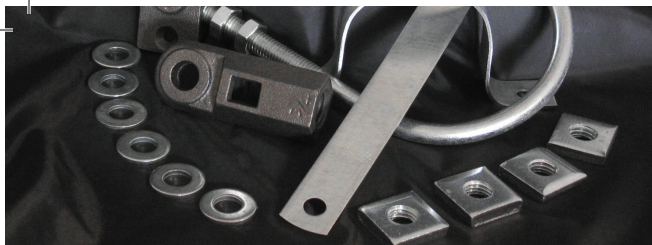

[Globe Pipe Hanger Products, Inc.](#) began manufacturing support products for the mechanical and fire protection industries in 1926. We have dedicated years to building our reputation on impeccable service and quality at a competitive price for our customers.

[Globe Pipe Hanger Products, Inc.](#) began operations in a 10,000 square foot facility centrally located near Cleveland, Ohio. Under the guidance of ISO 9001:2008 and AS9100C, our operations have expanded to satisfy the increasing demand for high-quality mechanical and fire protection products. Occupying 150,000 square feet of manufacturing and warehousing space, proudly no other U.S. pipe hanger manufacturer has operated longer with the same family or group ownership than [Globe Pipe Hanger Products, Inc.](#)

[Globe Pipe Hanger Products, Inc.](#) manufactures a vast array of products in many materials such as stainless steel, bronze, and iron, and with a wide array of manufacturing equipment available, we can produce small or large production runs. In stock, or engineered to spec, we've built our business on the quality of our products. Many of our products meet and exceed Underwriter's Laboratory Listings (UL), Factory Mutual Listings (FM), Manufacturer's Standardization Society (MSS-SP-69), and Federal Specifications (WW-H-171). You can view our entire downloadable product catalogue on our website at [www.globepipehanger.com](http://www.globepipehanger.com).

[Globe Pipe Hanger Products, Inc.](#) inventories many standard items to insure immediate response to your needs. In addition, regional sales and distribution centers are strategically located throughout the United States and international markets to streamline shipping. We are committed to our goal of 100% on time delivery and maintaining the highest standards of excellence in all aspects of our operation.

## PRODUCTS and FINISHES

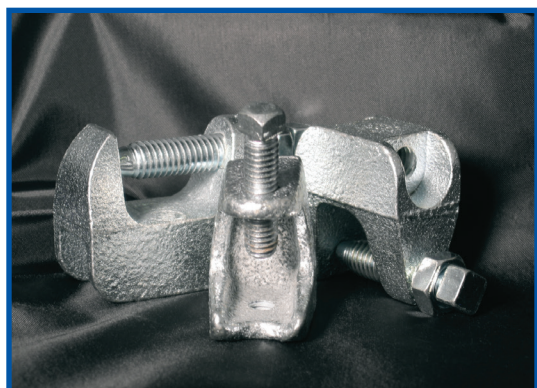

### OUR PRODUCTS

Globe Pipe Hanger Products, Inc. offers a large array of in-stock and custom-designed products known throughout the industry for high quality and long-lasting durability. We keep our shelves stocked to keep your business running smoothly.

Although our primary focus is the fire protection industry, Globe products can be found in many markets including:

- Fire Protection
- New Commercial Construction
- HVAC
- Power Generation
- Stainless Steel
- Mechanical
- Commercial Plumbing
- Refrigeration
- Water Works
- Electrical

We can also meet your needs for custom-engineered solutions and prototypes and in most cases, even get the quote to you in the same day. Small or large runs, Globe's production equipment and streamlined manufacturing process ensure consistent quality and rapid engineering response to your custom orders.

### STANDARD FINISHES

#### Hot Dip Galvanized

Strut fittings are hot dip galvanized after fabrication with a minimum weight of 1.5 oz. per square foot and meet Federal Standard ASTM A123.

#### Electroplated

Fittings are electroplated with zinc to commercial standards after fabrication. We offer quick turnaround on our electroplated finished parts.

#### Pre-Galvanized

These steel components are coated with zinc using a hot dip process prior to manufacturing. A minimum weight of .09 oz. per square foot is used to meet Federal Requirement ASTM A525 and Coating Designation G90.

#### Stainless Steel - NEW

#### Special Coatings

Paint, epoxy, copper-guard, and copper plate coatings can be supplied to your specifications as well as speciality finishes.
